EDUCATION

Bachelor of Computer Science Engineering
Vel Tech High Tech Dr. Rangarajan Dr. Sakunthala Engineering College **8.14 CGPA**
2022-2026

Higher Secondary
Vijayantha Model higher secondary school **85.1%**
2021 - 2022

SSLC
Vijayantha senoir secondary school **86.8%**
2019-2020

SKILLS

Languages: Java , Python(Basic).
Frontend: HTML , CSS , Javascript.
Database: Mysql

PROJECT

Document plagarism checker Based on Similarity
Developed a machine-learning based document plagarism checker using python.The model was trained to identify the paraphrased and copied contents from documents providing a reliable solutions .

Driver drowsiness detection using open cv and keras
Designed and implemented a Machine learning model in python .This project utilized real time image processing and deep learning techniques to classify driver alertness to enhance road safety .

Network Intrusion Detection system Leveraging ML for cyber Defence
Built a machine learning–based system to analyze network traffic and identify suspicious or malicious activities in real time.

INTERNSHIP

HEAVY VEHICLE FACTORY, AVADI
I had completed my internship work under the domain "WEB DEVELOPMENT". I gained knowledge about how the web pages are created using HTML and CSS and learned how to design a web page.

CERTIFICATION

- **S**QL certificate -Prepinsta
- **N**PTEL - Programming in java

PROFESSIONAL SKILLS

- Time Management
- Adaptability
- Active listener
- Team Work
